247 Legal

In Digital
Conveyancing

Digital Conveyancing utilises the speed of the Internet to deliver your legal documents and property information directly from lawyer to agent and most importantly to your buyer.

The 247 system means your agent can quickly prepare for the sale and is properly informed, as the legal information will now be available *before the agent has the board up*.

The 247 system avoids the wasteful duplication of contracts and vendor's statements as agents no longer have to fax or photocopy reams of documents requested by prospective buyers or their lawyers.

247 online conveyancing will give your prospective buyers instant access to all the legal information, minimising the risk of losing buyers due to delays. Prospective buyers can now complete their due diligence at their convenience 24 hours a day 7 days a week.

We recommend Digital Conveyancing to all our clients because it makes the process of selling your property easier and reduces costly delays.
